June 18: Toka Leya, Livingstone

Transfer early this morning to Johannesburg airport for a flight to Livingstone. You will be met by on-site team who will transfer you to Toka Leya Camp.

Toka Leya Camp is situated on the banks of the Zambezi River in the western sector of the Mosi-Oa-Tunya National Park, some 12km up from the Victoria Falls, one of the Seven Natural Wonders of the World.

Accommodation consists of 12 safari-style tents, each en-suite with a view of the magnificent Zambezi River. The camp's dining and bar area are under a canopy of trees overlooking the River and there is swimming pool.

Activities include a tour of the Falls on the Zambian side, game drives, river cruises, guided walks and fishing. Other activities on offer in the area at an additional charge include sunset cruises, helicopter flights, micro-lighting, canoeing, jet boating, white water rafting and fishing amongst others.

At 1708 metres wide, Victoria Falls is the most expansive curtain of water in the world and drops more than 100 metres into the sheer Zambezi Gorge. The Tonga and Makalolo peoples lived here for centuries before the Falls were 'discovered' by David Livingstone in 1855, who named them after his queen. Its local name - after which the national park is named - is Mosi-Oa-Tunya, "the Smoke that Thunders," which describes accurately the huge spirals of spray that can be seen 30km away.

Located in the south-west corner of Zambia, the Victoria Falls and the Zambezi River are the central points in an area of spectacular scenic beauty: from the Falls themselves to the broad, picturesque course of the Zambezi River upstream, the rainforest adjacent and the stark jagged gorge downstream, the power and timelessness of nature's forces are evident throughout.

Toka Leya Camp (B, L, D)

June 19 - 21: Puku Ridge Tented Camp/Kalamu Lagoon Camp, Zambia

After a leisurely breakfast we transfer to Livingstone Airport where we board a private charter for a scenic flight to Mfuwe and the Luangwa National Park.

At Mfuwe the group of 16 guests will split into two smaller groups of 8 passengers each. Group 1 will depart by road transfer to Puku Ridge Tented Camp and Group 2 will depart by air transfer to Kalamu Lagoon Camp.

Puku Ridge Tented Camp is a real wilderness experience under canvas with attention to luxury and comfort and emphasis on exciting wildlife opportunities. This superb 12 bed tented safari camp is located in a remote wildlife area in South Luangwa National Park will, on a ridge overlooking spectacular game rich floodplains. For millennia, this low, rocky ridge has overlooked the wide, water-rich valley. From this vantage point among the trees, predators and hunters would quietly observe the prolific hunting grounds spread out below. Visitors come to Puku Ridge to revel in the abundance of wildlife. Game to be seen includes elephant, lion, leopard, wild dog, buffalo and giraffe. The diverse wildlife along the dambo offers great opportunities for photography, whether you choose to explore on foot with a keen-eyed guide, or range further afield in a safari vehicle. Guided walks, game drives and night drives are conducted by armed professional safari guides. In the evenings, you dine with the night sounds of Africa for a soundtrack.

Puku Ridge inhabits a remote world of its own, watching the ancient patterns of life and survival while treating its visitors to enjoyably civilised hospitality. The camp is small and intimate, built unobtrusively close to the wild. It is a twelve-bed tented safari camp with six spacious walk-in canvas safari tents with a wrap around view of the flood plains below. Well-lit pathways cleared of undergrowth will connect the tents to the main bar/lounge. The natural vegetation has been left as undisturbed as possible.

Kalamu Lagoon Camp is situated in the Luamfwa Concession in the southern sector of the South Luangwa National Park. The area covers about 9 050 sq km of the Luangwa Valley floor, which varies from about 500m to 800m above sea level. Near the banks of the Luangwa the land is fairly flat, and mostly covered with mature woodlands. There are few dense shrubberies but also open areas where beautiful tall trees stand, shading a mixture of small bushes and grassland.

South Luangwa is a nature-lover's paradise that offers both unique bird watching and exciting game viewing. A secretive leopard might be spotted in the dense undergrowth or a herd of buffalo seen drinking at an old oxbow lake framed by giant sausage trees. Puku, impala and waterbuck are the most conspicuous mammals while bushbuck and Sharpe's grysbok are regularly seen in the denser vegetation. Lion, spotted hyaena and crocodiles head up the food chain here and a plethora of hippo congregate in the Luangwa River. The Luangwa's often-tuskless elephant can be seen foraging for illala palm fruit or wading through the river and night drives here offer not only the chance of that elusive leopard but also creatures like genet, civet, elephant shrews and white-tailed mongooses. Thornicroft's giraffe is endemic to the Valley and yellow baboons are regularly seen around the camp.

Accommodation consists of 8 safari-style reed and canvas tents, each en-suite with both an indoor and outdoor shower. The camp's dining and bar area are under a canopy of giant ebony trees overlooking a beautiful permanent lagoon just off the (South) Luangwa River. A pool and viewing deck area located to the side of the camp offer spectacular views of the lagoon. South Luangwa is renowned as the best walking destination in Africa and guests have the choice to explore the Luangwa riverine vegetation and adjacent dambos on guided walks. Other activities include day and night game drives.
